## **DETAILED ACTION**

### ***Status of the Claims***

**Claims 2-17** have been canceled. **Claim 1** is pending.

### ***Priority***

The current application filed on January 22, 2004 is a CON of 09/849,402 filed on May 04, 2002 now PAT 6,730,328, which is a CON of 09/269,685 filed on December 14, 1999 now PAT 6,264,990 which is a 371 of PCT/US97/18575 filed October 15, 1997 which claims priority to provisional application 60/028,167 filed October 16, 1996 and 60/052,920 filed on July 15, 1997.

### ***Preliminary Amendment***

The preliminary amendment filed January 22, 2004 has been entered.

### ***Claim Rejections - 35 USC § 112***

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

**Claim 1** is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

**Claim 1** recites the limitation "low reactivity vehicle" in 1. There is insufficient antecedent basis for this limitation in the claim.

### ***Double Patenting***

The nonstatutory double patenting rejection is based on a judicially created doctrine grounded in public policy (a policy reflected in the statute) so as to prevent the unjustified or improper timewise extension of the "right to exclude" granted by a patent and to prevent possible harassment by multiple assignees. See *In re Goodman*, 11 F.3d 1046, 29 USPQ2d 2010 (Fed. Cir. 1993); *In re Longi*, 759 F.2d 887, 225 USPQ 645 (Fed. Cir. 1985); *In re Van Ornum*, 686 F.2d 937, 214 USPQ 761 (CCPA 1982); *In re Vogel*, 422 F.2d 438, 164 USPQ 619 (CCPA 1970); and, *In re Thorington*, 418 F.2d 528, 163 USPQ 644 (CCPA 1969).

A timely filed terminal disclaimer in compliance with 37 CFR 1.321(c) may be used to overcome an actual or provisional rejection based on a nonstatutory double patenting ground provided the conflicting application or patent is shown to be commonly owned with this application. See 37 CFR 1.130(b).

Effective January 1, 1994, a registered attorney or agent of record may sign a terminal disclaimer. A terminal disclaimer signed by the assignee must fully comply with 37 CFR 3.73(b).

**Claim 1** is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over **claim 1** of U.S. Patent No. 6,264,990 and 6,730,328. Although the conflicting claims are not identical, they are not patentably distinct from each other because both claims embrace subject matter drawn to :

A stable non-aqueous composition of a biologically active agent comprising: A peptide containing powder (beta or gamma-interferon) wherein the hydration of said peptide in said powder is less than 10% and at least one anhydrous aprotic, hydrophobic, non-polar vehicle selected from the group consisting of perhalohydrocarbons, halogenated hydrocarbons, esters of halogenated hydrocarbons, and ethers of halogenated hydrocarbons (perfluorodecalin, methoxyflurane, and perflourotributylamine).

**Conclusion**

No claims are allowed.
